'**Journalism: Principles and Practice** is essential reading for students, teachers and journalists. It seems destined to become a classic text of journalism education' - **Professor Bob Franklin, Cardiff University**

'**Journalism: Principles and Practice** combines practical advice with critical reflection and draws on Tony's 20 years' experience as a journalist. It explains how to "do journalism", how to be a journalist and how to relate all the well-intentioned theory about the profession to doing the real job in the real world' - **Hold the Front Page**

'Novel, user-friendly layout... exhilarating and inspiring... seldom, if ever, have the practical and the theoretical been so well assimilated' - **Free Press**

'This excellent and easy-to-read book will help young journalists understand the real nature of today's media - and their role within it' - **Jeremy Dear, NUJ, General Secretary**

Offering a wide-ranging introduction to journalism and combining the experience and advice of practising journalists with insights gained by the academic study of journalism, **Journalism: Principles and Practice:**

- relates theory to practice throughout
- spans print, broadcasting and online journalism
- includes sections on news, features, sources, interviewing, and ethics
- includes a Style Guide for Journalists and a list of useful websites

In addition to explaining 'how to do' journalism, each chapter introduces a range of more theoretical concepts designed to encourage reflective practice. However, it also uses the perspective of practitioners to question media theory.
